Inserting and Formatting the Date

- Offers a variety of formats
- Can update automatically

TIP  Check *Update Automatically* to insert the date as a field.

Inserting Symbols

- A variety of symbols and special characters

The Special Characters tab displays commonly used characters such as the registered trademark (®) symbol and various punctuation symbols.

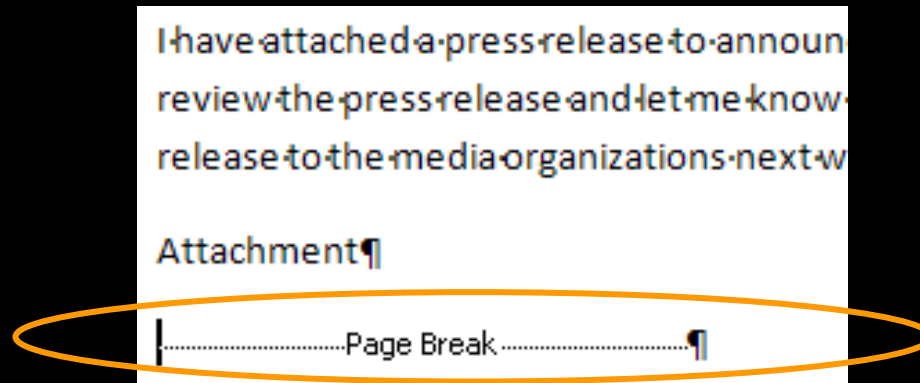

Working with Page Breaks

■ Automatic breaks

- ▲ Word decides when a new page begins
- ▲ When paragraphs are added in the middle, Word repaginates—redefining where page breaks go

■ Manual breaks

- ▲ You decide when a new page will begin
- ▲ Can be deleted

TIP  To remove a page break, position the insertion point at the beginning of the Page Break line and press **Delete**.

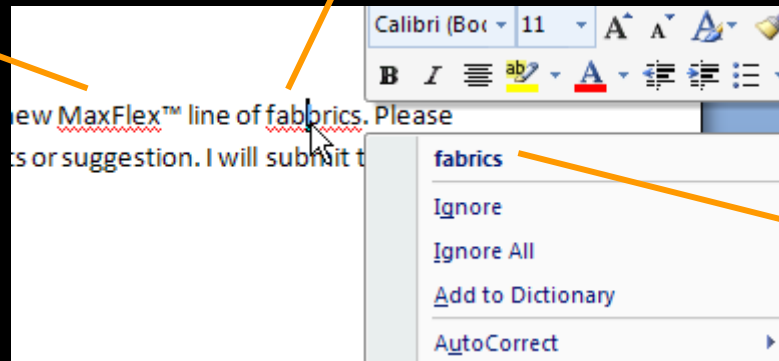

Working with Proofreading Tools – Spelling Checker

- Automatically check spelling as you type
- Add words to the Custom Dictionary

This word is spelled correctly but is not in the dictionary

Misspelled word shown with a red wavy underline

Mini toolbar always appears when you right-click text; ignore it

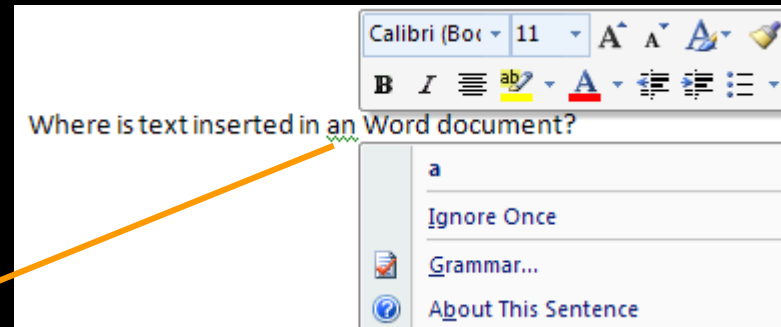

Suggested spelling appears in popup menu

Working with Proofreading Tools – Grammar Checker

- Automatically check grammar as you type

Right-click the green wavy line for suggestions

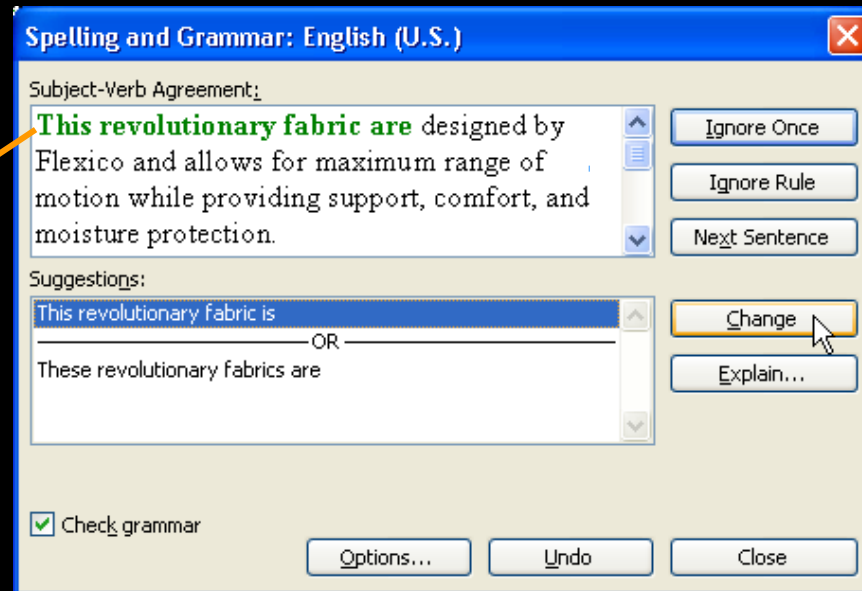

TIP  *The grammar checker isn't perfect. Proofread carefully!*

The Spelling and Grammar Dialog Box

- Check an entire document for spelling and grammar mistakes

The green highlighted characters direct your attention to the text in question

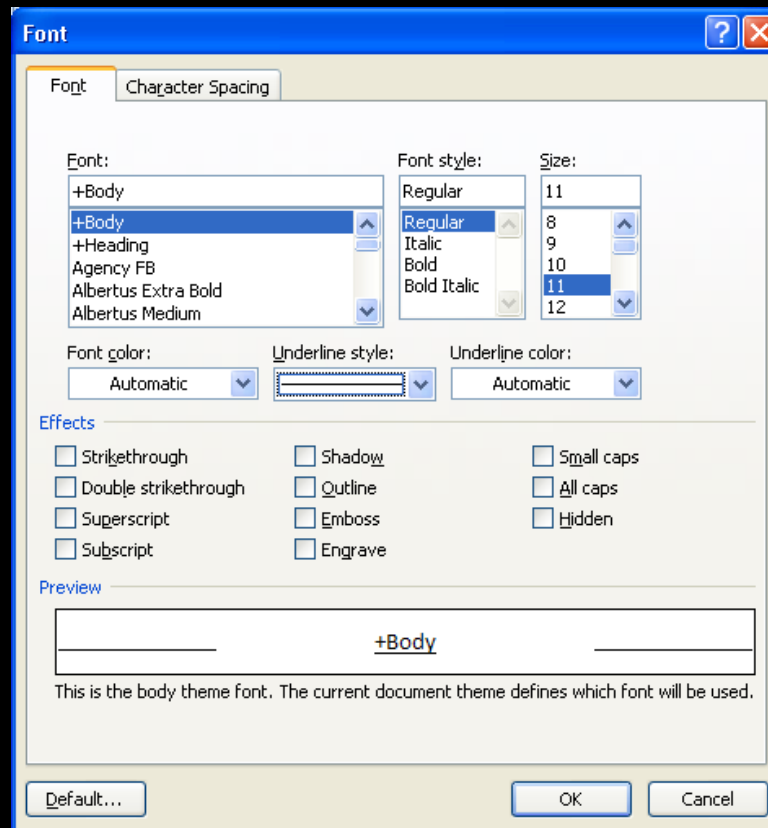

The Spelling and Grammar Dialog Box is especially useful when you are checking a large document.
